Technical Guide

Account details

Please use the login credentials (username and password) sent to you. Do not sign up for a new account yourself. If you do, that will not link to the competition anyway.

The online platform

KMT 2021 is powered by Ylearn (www.ylearn.xyz). Go to this website to login for your exam.

1. Go to ylearn.xyz/login
2. Type in your username and password
3. Click Log in
4. Click on the assigned test.
5. If you log in before time, you will not see an assigned test. Once it is time, please refresh (Windows: F5; Mac: Command + R) your page – and the assigned test should show.

You can try to start logging in for your tryout only on Thursday 22 April onward.

Required device(s)

- A laptop with an integrated webcam, or a desktop with an add-on webcam for the exam
- A good internet connection

*In case a webcam is not available, a handphone may be used.

**The online exam must run on a laptop or a desktop. It cannot run on tab or handphone.

Browser

Best would be Google Chrome, Mozilla Firefox, Microsoft Edge and Safari. Make sure also that you have the latest version of the browser.

Ylearn don't's

- If your device is experiencing a problem, do not login immediately from another device. Opening one ylearn account from more than one device will get you blocked. Log out from the first, only then try logging in from the second.
- After you start the test, do not exit ylearn and go to another app. This will cause your screen to be locked out - and you will be asked to write your reason why you are locked out in order to be able to go back to the exam screen. This reason needs to be of a minimum 8 characters. We will review this, and if we feel we have a valid ground, we will disqualify you.

Webcam and proctoring

During the competition, we will be utilizing Zoom meeting.

Dry runs (tryouts) ylearn.xyz/login

We have scheduled three days of tryouts: Thu 22 Apr, Fri 23 Apr and Sat 24 Apr. On each day there are 3 sets of tests (same sets on the three days). Each test will last for 15 minutes and can be taken once anytime between 7AM to 9PM. All the dry runs are not marked and will not affect your competition results. The purpose of this dry run is: for you to get to adapt to the online environment. If some of the questions are too difficult for you, do not worry - this does not count to your results. On the contrary, if the questions are too easy, please be informed that this is not in any way a reflection of the level of difficulty of your actual test.

No Zoom is utilized during any of the tryouts.

Leave class button

If you navigate around ylearn, you might find the 'leave class' button. This is a forbidden button. Do NOT click this button. If you click "leave class", it means you are withdrawing yourself from the competition.

Competition day attire

While it is not compulsory, we encourage the participating students to wear their school uniform. Doing so reminds them about the pride and honour of representing their school, it is massive.

Technical support

If you experience any technical difficulties/problems on the competition day, please send message to Kangaroo Math Thailand facebook page m.me/kangaroo.math.thailand, mention your username and your problems. Assistance will be provided through this messenger.
